

Site News

July has been another encouraging month for REVIVED with two more new sites recruiting their first patients. Congratulations to Belinda Rif, Miles Behan and Martin Denvir at the Royal Infirmary of Edinburgh, Jan Barton, Jay Wright and Rod Stables at Liverpool Chest and Heart Hospital and to the supporting teams at both hospitals. Leeds have received R&D approval and are screening for patients. Just a short newsletter this month, normal newsletter service will resume in September. Happy holidays!

29 patients recruited

Site Progress Summary

Sites currently screening arranged in order of site initiation:

Other news:

- Successful TSC meeting held on 3rd July
- Amendment 5 approval granted on 9th July
- Document control sheets due back on 8th August.

FAQs

Q. Is there any provision in the trial for pre-screening consent?

A. Not at this time but please record on the screening log any patients that have been excluded because certain screening tests (specifically viability or angiogram) could not be done as part of routine care.
