

REVIVED

News

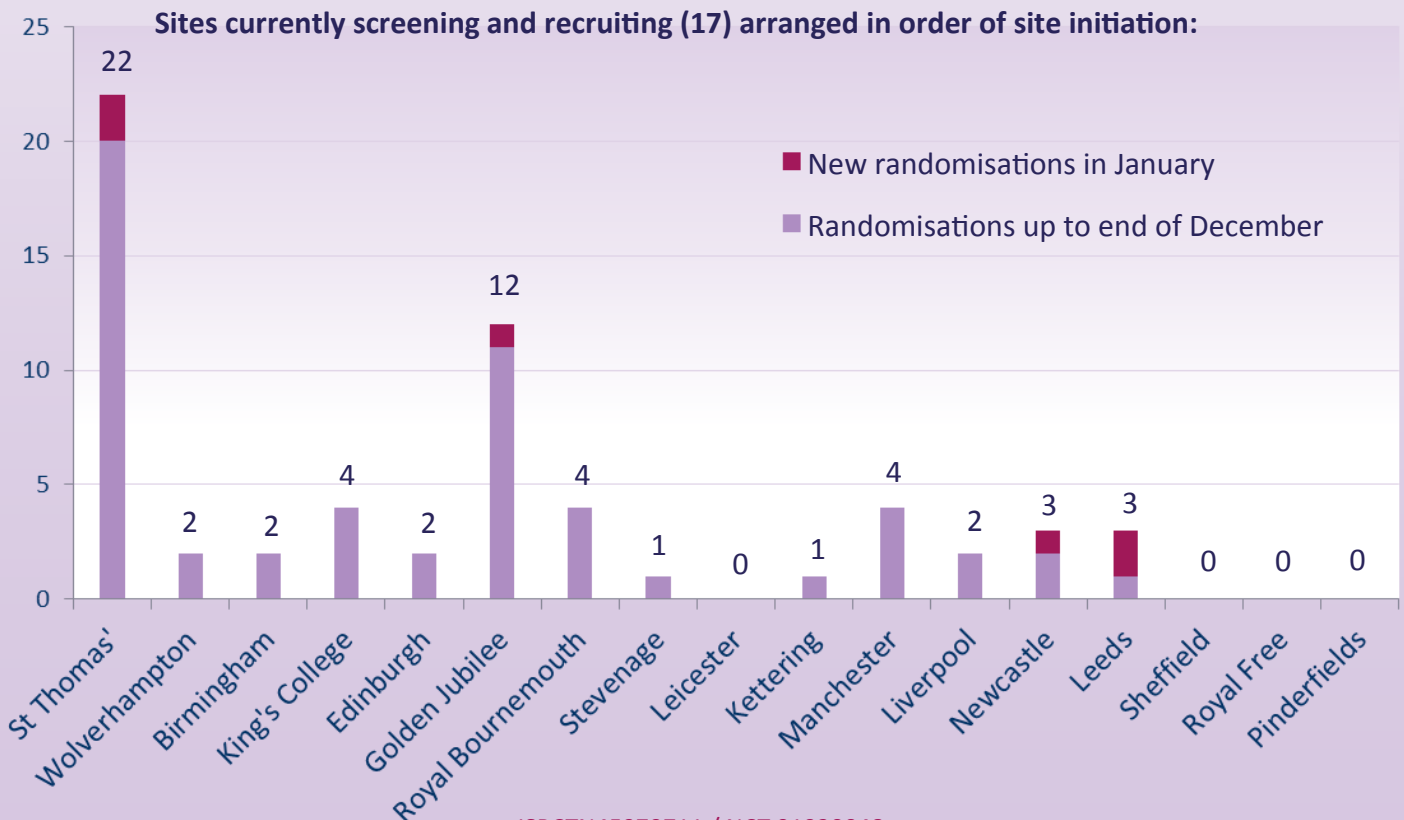

January has been a good month for site set up. Two new sites had their site initiation visits: Worcester Acute Hospital on 15th January and Queen Alexandra Hospital, Portsmouth (*picture on the left*) on the 29th January. A feasibility form has also been received from Royal Devon and Exeter.

Regional Meetings—March 2015

Invitations for the regional meetings in March have now gone out in the post. These meetings are very important for ensuring that you have all the latest information and a chance to discuss REVIVED with other people running the trial around the country. **Please RSVP as soon as possible.** If you do not receive an invite by the 9th February 2015 and would like to attend, please email Rebecca Chu rebecca.chu@lshtm.ac.uk as there may be additional spaces.

Site Progress Summary

62 patients recruited

LSHTM Short Course in Clinical Trials

The Medical Statistics Department (MSD) at the London School of Hygiene and Tropical Medicine (LSHTM) will be running a short course in clinical trials.

This course provides attendees with a clear understanding of the fundamental principles of Randomised Clinical Trials (RCTs), particularly phase III trials. Lectures and practical sessions cover the key issues to be considered in design, conduct, analysis and reporting, with a focus on major clinical trials which directly influence clinical practice. Topics are addressed with perspectives from both public sector research and the pharmaceutical industry.

The course is relevant to those who are keen to gain an understanding of the rigorous evaluation of interventions in health care including health care workers, research managers and other scientists with an interest in this field.

Places on the course are limited. The course runs for 5 days from the 15th to 19th June 2015.

The June 2015 course has been approved by the UK Royal College of Physicians for 30 Continuing Professional Development (CPD) credits.

For further information and an application form please visit: <http://www.lshtm.ac.uk/study/cpd/sct.html>

New Trial Assistant—Rebecca Chu

Hi I'm Rebecca Chu and I will be working on REVIVED with Rebecca Matthews and Richard Evans as the Clinical Trials Assistant. I joined the London School of Hygiene and Tropical Medicine in November 2014 and will be working with the Clinical Trials team on upcoming trials. I look forward to working with you and meeting you on site initiations.

Echo core lab

Many of you have been asking about where to send in your echos for the core lab. Please send to the following address:

Haotian Gu, Cardiothoracic Centre, 6th Floor East Wing, St Thomas' Hospital, London, SE1 7EH

Please ensure that the echos are anonymised. It is recommended to send these in a padded envelope through the regular post. If this will be a problem for your site, let us know.

FAQ

Q. What information needs to be sent to the echo core lab be transferred

A. Echo data from baseline, 6 months and 1 year needs to be sent in to the core lab. Information should be sent on an anonymised CD. For specific details, please contact the CTU.
