

## News

Welcome to the September edition of the REVIVED newsletter. Hopefully you have all had an enjoyable and relaxing summer.

REVIVED passed a huge milestone this month with the **350th patient** randomised, which means we are halfway to the planned target of 700. This comes almost four years to the day after the first patient was recruited into the trial. REVIVED has come a long way since then, the recruitment rate has steadily risen and we are now well on track to complete recruitment in time.

With two and a half years left of recruitment there is plenty of chance for all sites to make a meaningful contribution, so please get in touch if you would like to discuss how to optimise REVIVED at your site, we will be very happy to help. Please get in touch via the contact details at the bottom of the page.

## 351 patients recruited

### Recruitment News

In total 6 patients were recruited in August, from 6 different sites.

Congratulations to Miles, Belinda and the team at Edinburgh Royal Infirmary who recruited the momentous 350th patient.

Congratulations to Dwayne, Judith and the team at Pinderfields Hospital in Wakefield who have recruited their first patient in a year and a half. It is a real achievement to get recruitment back up and running after a delay, and it is very much appreciated.

Barts, Bournemouth, Golden Jubilee and St Thomas' all recruited a patient, which continues a successful 2017 for those sites.

We will be sending a thank you gift to all six sites that recruited a patient in August.

### New sites

A site initiation is pencilled in for Derriford Hospital in Plymouth, this will be the 35th site opened for REVIVED.

With the cost extension secured we plan to open at least five additional sites in the coming months.

There has been interest from Ninewells Hospital in Dundee, Blackpool Victoria Hospital, Bristol Royal Infirmary, Wythenshawe Hospital in Manchester, Royal Berkshire Hospital in Reading and St George's Hospital in London.

We are interested in opening further sites so if you have any ideas please get in touch with the REVIVED CTU via the contact details below.
